## -2- PRODUCT INFORMATION

### Product name 1

because

### Dimensions

450mm x 700mm

### Approximate weight

0.5kg

---

### Technical description

Central lamp shade made of diffuse fabric is formed by six paracords that are stretched taught over two rings pulled in place by a counter weight. The two rings are precision cut steel with a copper finish. Special notches in the rings allow for the cord to be threaded through them while maintaining the correct amount of friction and toughness to be created to support the suspended structure.
