

-1- PRESENTATION FORM

Name and surname / Name of the group

Christina Kazakia

City

Philadelphia, PA USA

Country

United States

Bio

Christina is an observer, a maker, and an innovator whose designs respond to the natural inclinations and needs of people. Perhaps it was growing up as an only child that first drove her outside to play and later inspired her fort building tool named Stick-lets. Stick-lets originated during her industrial design thesis at Rhode Island School of Design (RISD) in 2011. In 2014, Christina was featured in the first IDSA Women in Industrial Design show as one of the emerging female designers. Christina now lives in Philadelphia, USA where she teaches product design, works as a freelance designer, and manages Stick-lets.

-2- PRODUCT INFORMATION
