

-1- PRESENTATION FORM

Name and surname / Name of the group

Karen Lemmert & David Naill / MANIFOLD design

City

Baltimore

Country

United States

Bio

Karen Lemmert and David Naill established the design studio, Manifold Design, in 2001, located in Baltimore MD. They have produced works on projects ranging from the establishment of a 200 acre reforestation plan, the completion of a 'Manifold' small business incubator in Baltimore City, to exhibiting at the Venice Architectural Biennale in 2014. MANIFOLD design has also been invited to participate in the upcoming Venice Art Biennale 2015. The partnership is committed to fostering new growth within cities and embracing the challenge of incorporating their investigations into existing works and landscapes. In turn, they also have a passion for sustaining agrarian culture. Their work oscillates between rural and urban projects and also space and object making.

-2- PRODUCT INFORMATION

Product name 1

345 RGB Scope

Dimensions

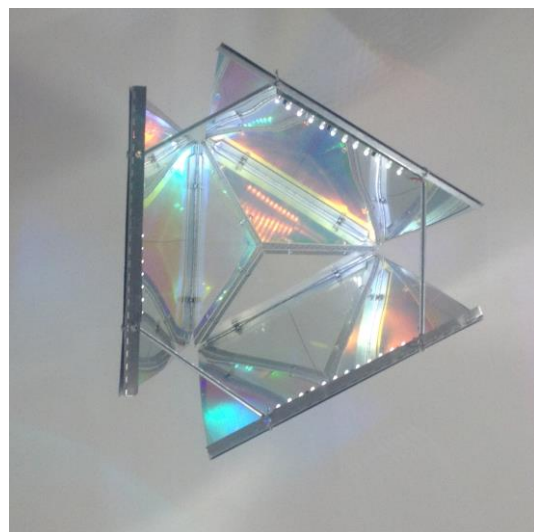

15" x 15" x 24"h

Approximate weight

5 lbs.

Technical description

Triangulated fixture made of Mirrored Aluminum and Dichroic-Filmed Plexiglas w/ Aluminum and Stainless Fasteners. The assemblage is uplit by linear LEDs and downlit by LED spots.

Product name 2

345 RGB Point

Dimensions

10" x 10" x 16"H

Approximate weight

2lbs.

Technical description

Multi-faceted fixture made of Mirrored Aluminum and Dichroic-Filmed Plexiglas w/ Aluminum and Stainless Fasteners. The assemblage is uplit by linear LEDs.
