LAZY BUT STATELY LIVING SPACE FOR THE URBAN CANINE

City-dogs can only dream about having a garden with a kennel where they can escape for a moment from the pressures of the outside world – something those country dogs don't even have to think twice about. Thanks to Rosi & Rufus's pet furniture those days are now over!

Established in 2012 in the heart of Munich Rosi & Rufus represent living space for dogs. With the use of high quality materials, local production and the highest standard in design Rosi & Rufus envision not merely furniture for dogs but rather a living space for these four-legged urban dwellers. All furniture is handcrafted by regional experts and incorporates important ecological and aesthetic aspects. Adopting ecological aspects means we only use varnish that is both sweat and saliva resistant, water-based foam padding and certified timber that complies with sustainable forestry. In addition, the furniture is produced, by hand, in local, small to medium sized factories thereby minimizing ecological damage due to superfluous transportation and packaging.

Last but not least is our high standard in shape and design. Classic yet contemporary shapes give rise to unique constructions that harmonize well with any home and encourage rest and relaxation and precisely a living space for the urban canine. The doggie furniture thus creates a unique, pleasant household atmosphere for humans and dogs alike who share not only a friendship of convenience, but also a lifelong companionship.

-2- PRODUCT INFORMATION

Product name 1

DOGGIE SOFA ROXI

Dimensions

Size L 79 cm x 60 cm x 44 cm

Approximate weight

24 kg

Technical description

This kennel is Roxi's big sister with a real 50ies flavor. The black MDF and refined wild elm veneer establishes the family tie with little sister.
